CORRECTIVE ACTION TAKEN OR NECESSARY			NECESSITY FOR OVERTIME WORKED			EXPLANATION OF MISSED DEADLINES			DESCRIPTION OF UNUSUAL JOBS				
<p>*The backlog in multilith has been reduced by 2,013,041 impressions due to the correction of an error in recording work received. This large form job was originally recorded as work received at the main plant, however, as the job was printed in Plant II it was also recorded thus as new work received. Production was reported from Plant II but was not reported from the main plant. Thus, the on hand figure remained in error by 2,013,041 impressions.</p>
